

SOUTH DAKOTA DRINKING WATER PROGRAM

WAIVER FOR ARSENIC

A water system may be granted a waiver for ARSENIC. The waiver is in effect until the end of the current nine year compliance cycle. In order to qualify for the arsenic waiver, an entry point's last three compliance samples must have results less than .007 mg/l (7 ug/l). As a condition of the waiver, a system must sample once during the term of the waiver.

\_\_\_\_\_ water system requests a waiver for ARSENIC for the following entry point(s):

Entry Point(s)	Year Built
_____	_____
_____	_____
_____	_____
_____	_____

**You must supply actual copies of the last three arsenic analyses along with this waiver request.** All information supplied is true and correct. Please submit to: Rob Kittay-DENR, 523 E Capitol, Pierre SD 57501.
